Since the previous University Council meeting in March 2008, the Undergraduate Assembly has passed the following proposals:

**SEPTA Proposal** – Promotes SEPTA use among undergraduate students through a call for increased availability of SEPTA tokens and maps on campus, as well as the potential of SEPTA student passes.

**International Students Proposal** – Pushes for improvements to ISO and addresses the inequity of international students paying forced early move-in fees in the fall.

**Blood Donation Proposal** – Revised proposal regarding students’ concerns about blood donation by gay males on campus.

**Academic Support Resources Proposal** – Advocates for greater awareness of academic support resources on campus (through the College House system and syllabi, among other methods), as well as improvements to peer tutoring.

**Dining Proposal** – Encourages improvements to campus dining, especially at 1920 Commons.

**Printing Proposal** – Urges for improvements to printing across campus, such as a uniform PennCash-based system across schools and double-sided printing.

**PennArts and PennGreen Pre-Orientation Programs** – Granted significant funding to both pre-orientation programs.
