RELATIONSHIP VIOLENCE, also commonly known as dating violence or domestic violence, is defined as an act or a pattern of abuse committed by a person involved in a social, sexual or romantic relationship, past or present, with the victim. Relationship violence can encompass a broad range of behaviors that may include physical violence, sexual violence, emotional violence and economic violence.

**Examples of abusive behavior include:**

- Using threats or insults
- Hitting, pushing, strangling
- Stealing money
- Isolating from family & friends
- Restricting access to birth control

**No physical violence needs to occur in order for a relationship to be abusive.**

**However, it is important to know that emotional and psychological abuse often escalate to physical violence in time.**

**Women aged 16-24 experience the highest rate of intimate partner violence.**
STALKING

means engaging in a course of conduct directed at specific person(s) that would cause a reasonable person to (a) fear for his or her safety or the safety of others, or (b) suffer substantial emotional distress.

People are most often stalked by someone they know such as an acquaintance or an ex-partner, but you can also be stalked by a stranger. Stalking behavior is often mistaken for unwanted romantic attention and may not be taken seriously. However, if not interrupted, stalking can cause a victim to live in fear and alter their routine.

18-24 YEAR OLDS EXPERIENCE THE HIGHEST RATES OF STALKING

EXAMPLES OF STALKING BEHAVIOR:

- Following or spying on someone
- Repeatedly sending unwanted e-mails, letters, Facebook messages, text messages, etc
- Threatening someone or their friends & family
- Leaving unwanted gifts or items
- Destroying someone’s property

WHAT IS CONSENT?

- An affirmative decision to engage in mutually agreed upon sexual activity given by clear words or actions cannot be given by a person who because of youth, disability, intoxication or other condition is unable to lawfully give his or her consent

consent to one form of sexual activity does not imply consent to other forms of sexual activity may not be inferred from silence, passivity, or lack of resistance alone the existence of a current or previous relationship is not sufficient to constitute consent

SEXUAL VIOLENCE includes a range of behaviors in which an act of a sexual nature is taken against another person without the individual’s consent or when the individual is unable to consent. Sexual assault (including but not limited to rape) is defined as someone having committed any of the following acts:

- Any physical sexual contact that involves the use or threat of force or violence or any other form of coercion or intimidation;

- Any physical sexual contact with a person who is unable to consent due to incapacity or impairment, mental or physical. “Incapacity” or “impairment” includes but is not limited to being under the influence of alcohol or drugs or being too young to consent.

BELOW IS A BRIEF OUTLINE OF THE RECOMMENDED STEPS FOR PENN STUDENTS TO TAKE IMMEDIATELY AFTER EXPERIENCING SEXUAL OR RELATIONSHIP VIOLENCE:
BETWEEN IS A BRIEF OUTLINE OF THE RECOMMENDED STEPS FOR PENN STUDENTS TO TAKE IMMEDIATELY AFTER EXPERIENCING SEXUAL OR RELATIONSHIP VIOLENCE:

1. If possible, **FIND A SAFE PLACE** away from the perpetrator or from any other potential danger.

2. **CONTACT THE PENN POLICE AT 215.573.3333.** The Penn Police are specially trained to respond to incidents of interpersonal violence and will connect students with an advocate from Special Services. These advocates will discuss medical and reporting options such as receiving a Protection From Abuse Order and/or receiving a medical exam.

3. **SEEK MEDICAL ATTENTION** as soon as possible. The Philadelphia Sexual Assault Response Center (PSARC) is designated to provide forensic rape examinations to victims of sexual assault. It is recommended that students who wish to pursue legal action, or may want to pursue legal action in the future, receive this examination, which includes a collection of evidence. During this examination victims can receive treatment for injuries and sexually transmitted infections as well as emergency contraception. An advocate from Special Services can provide transportation and accompaniment to PSARC.

4. **SPEAK WITH A RESOURCE**, some of which are listed on page 6. These resources offer a range of services such as counseling, advocacy, safety planning, assistance with making a report, and housing and academic support.
